

SAFETY DATA SHEET

according to Regulation of the European Parliament and Council (EC) No.
1907/2006 (REACH), as

amended **CHAMOMILE NEW 2 ANTIALERGIC**

Creation date	05/04/2016	Clean version	Sat
Date of revision	06/30/2022		

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier CHAMOMILE NEW 2 ANTIALERGIC

Substance /	mixture
mixture Pure	101800
UFI	H0X2-G9EQ-P00A-A6SQ

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use of the mixture

Concentrated raw material. For industrial use only.

Main intended use

Mixtures for further formulation F

Intended uses of the mixture The product

must not be used in ways other than those listed in section 1.

1.3. Detailed information about the supplier of the safety data sheet

Manufacturer Name or trade name Address
Ekokoza s.r.o
Fryčovice 297
73945, Fryčovice
eshop@ekokoza.cz
+420605779993
ID: 07508247

1.4. Telephone number for emergency situations Toxicology

Information Centre, Clinic of Occupational Medicine VFN and 1st Faculty of Medicine UK, Na Bojišti 1, 120 00, Prague 2, phone: 224 919 293 and 224 915 402.

SECTION 2: Hazard identification 2.1.

Classification of the substance or mixture

Classification of the mixture according to Regulation (EC) No.

1272/2008 The mixture is classified as dangerous.

Flam. liq. 3, H226 Skin
Irrit. 2, H315 Skin
Sens. 1, H317 Eye Irrit.
2, H319 Aquatic
Chronic 2, H411

The full text of all classifications and H-phrases is given in section 16.

The most serious adverse physico-chemical effects Flammable liquid
and vapors.

The most serious adverse effects on human health and the environment May cause an
allergic skin reaction. Causes severe irritation o. It irritates the skin. Toxic to aquatic organisms, with long-term effects.

SAFETY DATA SHEET

according to Regulation of the European Parliament and Council
(EC) No. 1907/2006

(REACH), as amended **CHAMOMILE NEW 2 ANTIALERGIC**

Creation date	05/04/2016	Pure version	Sat
Date of revision	06/30/2022		

2.2. Elements labeled

Danger warning symbol

yyy

Signal word

Warning

Hazardous substances

Hexyl salicylate
Tetrahydrolinalool 4-tert-
Butylcyclohexyl acetate Cedrylacetate
Aliyl phenoxyacetate
linalylacetate 2-Methyl-3- 4-

isopropylphenyl)propanal Coumarin linalool d-Limonene

Standard hazard statements

H226 H315 H317 H319 H411

Flammable liquid and vapors.
It irritates the skin.

May cause an allergic skin reaction.
Causes serious eye irritation.
Toxic to aquatic organisms, with long-term effects.

Instructions for safe handling

P210

Keep away from heat, hot surfaces, sparks, open flames and other sources of ignition. No smoking11i.

P273

Avoid release to the environment.

P280

Use protective gloves.

P305+P351+P338

IF IN EYES: Rinse carefully with water for several minutes. Remove contact lenses, if worn and if they can be removed easily. Continue rinsing.

P333+P313

In case of skin irritation or rash: Seek medical attention/treatment.

P337+P313

If eye irritation persists: Get medical attention/treatment.

PSOI

Dispose of contents/packaging according to applicable regulations.

2.3.

Other hazards The mixture

does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. The mixture does not contain substances meeting the criteria for PBT or vPvB substances in accordance with Annex XIII, Regulation (EC) No. 1907/2006 (REACH), as amended.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characteristics Mixture

of substances and admixtures listed below.

The mixture contains these dangerous substances and substances with the highest permissible concentrations in the working atmosphere

Identification numbers	Substance name	Contents v/o Classification according to Regulation (EC) No. 1272/2008 weight	Note

The full text of all classifications and H-phrases is given in section 16.

SECTION 4: First aid instructions 4.1.

Description of first aid Take care of

your own safety. In case of health problems or in case of doubt, inform the doctor and give him the information from this safety data sheet. If unconscious, place the victim in a stable position on his side, with the head slightly tilted, and ensure the airway is open, never induce vomiting. If the affected person vomits on his own, take care not to inhale the vomit. In life-threatening situations, first resuscitate the affected person and provide medical assistance. Respiratory arrest - perform artificial respiration immediately. Cardiac arrest -

perform indirect heart massage immediately.

In case of

inhalation Stop exposure immediately, move victim to fresh air. Protect the victim from catching cold.

Get medical attention if irritation, shortness of breath, or other symptoms persist.

In case of contact

with skin Remove contaminated clothing. Wash the affected area with plenty of lukewarm water if possible. If the skin has not been injured, it is also advisable to use soap, soap solution or shampoo. Get medical treatment if skin irritation persists. Rinse skin with water or shower.

In case of contact

with the eyes, immediately flush the eyes with a stream of running water, open the eyelids (perhaps by force); if the victim wears contact lenses, remove them immediately. Rinse for at least 10 minutes. Get medical, professional treatment if possible.

In case of

ingestion Rinse the oral cavity with water and drink 2-5 dl of water. Get medical treatment for a person who has health problems.

4.2. Most important symptoms and effects, both acute and delayed Inhalation

Not expected.

May cause an allergic

skin reaction **when in contact with the product**.

Eye contact Causes

serious eye irritation.

Ingestion

Irritation, nausea.

4.3. Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Fire fighting measures 5.1.

Extinguishing

media Suitable

extinguishing agents Alcohol-resistant foam, carbon dioxide, powder, water jet, water mist.

Unsuitable extinguishing

media Water - full stream.

5.2. Special hazards arising from the substance or mixture In the event of a fire,

carbon monoxide and carbon dioxide and other toxic gases may be produced. Inhalation of dangerous decomposition (pyrolysis) products can cause serious damage to health.

SAFETY DATA SHEET

according to Regulation of the European Parliament and Council (EC) No.
1907/2006 (REACH), as

amended **CHAMOMILE NEW 2 ANTIALERGIC**

Creation date 05/04/2016

Date of revision 06/30/2022

Clean version

Sat

5.3. Instructions for firefighters

Self-contained breathing apparatus and chemical protective suit only if personal (close) contact with the chemical substance is likely. Use self-contained breathing apparatus and full body protective suit. Flush closed containers with the product near the fire with water. Do not let the contaminated extinguishing agent escape into the sewer, surface and ground water.

SECTION 6: Accidental release measures 6.1.

Personal protection measures, protective equipment and emergency procedures

Ensure adequate ventilation. Flammable liquid and vapors. Eliminate all sources of ignition. Use personal protective work equipment. Follow instructions contained in sections 7 and 8. Avoid contact with skin and eyes.

6.2. Environmental protection measures

Do not allow to enter the drain. Avoid contamination of the slurry and release to surface or ground water.

6.3. Methods and material for containment and cleaning up

Cover the spilled product with suitable (non-flammable) absorbent material (sand, diatomaceous earth, earth and other suitable absorbent materials), collect in well-closed containers and dispose of according to section 13. In case of spillage of large quantities of product, notify the fire brigade and other competent authorities. After removing the product, wash the contaminated area with plenty of water. Do not use solvents.

6.4. Reference to other sections

See section 7, 8 and 13.

SECTION 7: Handling and storage 7.

1. Precautions for safe handling

Avoid gas and vapor formation in flammable or explosive concentrations. Use the product only in places where it does not come into contact with open flames and other sources of ignition. Use non-sparking tools. It is recommended to use antistatic clothing and shoes. Avoid contact with skin and eyes. Don't smoke. Do not take contaminated work clothes out of the workplace. Wash your hands and affected body parts thoroughly after manipulation. Use personal protective equipment according to section 8. Observe applicable health and safety legislation. Ground and secure the packaging and sampling equipment. Use electrical/ventilating/lighting equipment in explosive atmospheres.

Take precautions against static electricity. Avoid release to the environment.

7.2. Conditions for safe storage of substances and mixtures, including incompatible substances and mixtures

Store in tightly closed containers in cool, dry and well-ventilated places designated for this purpose.

Do not expose to the sun. Keep the package tightly closed. Keep refrigerated.

Storage class

3A - Flammable liquids (flash point below 55 °C)

Specific requirements or rules related to the substance/mixture Solvent vapors

are heavier than air and accumulate mainly near the floor where they can form an explosive mixture with air.

7.3. Specific end use(s) not specified

SECTION 8: Exposure controls/personal protective equipment 8.1.

Control parameters

The mixture does not contain substances for which exposure limits for the working environment are established.

8.2. Limiting exposure

Do not eat, drink or smoke while working. Wash your hands thoroughly with soap and water after work and before breaks for meals and rest.

Eye and face protection

Safety glasses.

Protection

Hand protection: Protective gloves resistant to the product. Follow the recommendations of the specific glove manufacturer when choosing the appropriate thickness, material and permeability. Follow the manufacturer's other recommendations. Other protection: Protective work clothing. In case of skin contamination, wash it thoroughly.

Refractive index (at 20°C): 1.4260 - 1.4660

SECTION 10: Stability and reactivity

10.1. Reactivity

not specified

10.2. Chemical stability

The product is stable under normal conditions.

10.3. Possibility of hazardous reactions None

known.

10.4. Conditions to avoid

Under normal use, the product is stable, does not decompose. Protect from flames, sparks, overheating and frost. **10.s. Incompatible materials**

Protect from strong acids, bases and

oxidizing agents.

10.6. Hazardous decomposition products

They do not arise under normal use. At high temperatures and in case of fire, dangerous products such as carbon monoxide and carbon dioxide are formed.

SECTION 11: Toxicological information

11.1. Information on hazard classes defined in Regulation (EC) No. 1272/2008 No toxicological data are

available for the mixture.

Acute toxicity

Based on the available data, the criteria for classification are not met.
Boman-2-one

Exposure route	Parameter	Value	Exposure time	Species	Sex
Oral -	LD ₅₀	1310 mg/kg		Rat	

Eye irritation / Irritation to skin Irritating to skin.

Serious eye damage / eye irritation Causes serious eye irritation.

Respiratory sensitization / sensitization as May cause an allergic skin reaction.

Germ cell mutagenicity Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the criteria for classification are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

Toxicity to specific sensory organs - single exposure Based on the available data, the criteria for classification are not met.

Toxicity to specific sensory organs - repeated exposure Based on the available data, the criteria for classification are not met.

Aspiration hazard

Based on available data, the criteria for classification are not met.

11.2. Information on other hazards not given

SECTION 12: Ecological information

12.1. Toxicity

Acute toxicity

Toxic to aquatic organisms, with long-term effects.

12.2. Persistence and degradability

not specified

12.3. Bioaccumulative potential

Not listed.

12.4. Mobility in pt'Ida

Not listed.

12.5. Results of PBT and vPvB assessment

The product does not contain substances meeting the criteria for PBT or vPvB substances in accordance with Annex XIII, Regulation (EC) no. 1907/2006 (REACH), as amended.

12.6. Endocrine-disrupting properties

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

12.7. Other adverse effects

Not listed.

13.1. Waste management methods Danger

of environmental contamination, proceed according to Act No. 541/2020 Coll. on waste, as amended, and according to the implementing regulations on waste disposal. Follow the applicable waste disposal regulations.

Place the unused product and the contaminated packaging in marked containers for waste collection and hand it over to an authorized person for waste disposal (specialized company) who is authorized for this activity. Do not pour the unused product down the drain. It must not be disposed of together with municipal waste. Empty packaging can be used for energy in a waste incinerator or stored in a landfill of the appropriate classification. Perfectly cleaned packaging can be sent for recycling.

Legal regulations on waste¹ Act

No. 541/2020 Coll., on waste, as amended. Decree No. 8/2021 Coll., on the Waste Catalog and assessing waste properties (Waste Catalog). Decision 2000/532/EC establishing the list of waste, as amended by later regulations. Decree No. 273/2021 Coll., on the details of waste management.

SAFETY DATA SHEET

according to Regulation of the European Parliament and Council (EC) No. 1907/2006 (REACH), as amended

CHAMOMILE NEW 2 ANTIALERGIC

Creation date	05/04/2016	Pure version	Sat
Date of revision	06/30/2022		

Ems	Contingency plan EC
EC	number is a numerical identifier of substances on the EC list
EU	European Union
EuPCS	European product categorization system
IATA	International Air Carriers Association
IBC	International Code for the Construction and Equipment of Ships Carrying Hazardous Chemicals in Bulk
ICAO	International Civil Aviation Organization
IMDG	International maritime transport of dangerous goods
INCI	International nomenclature of cosmetic ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
LD ₅₀	Lethal dose of a substance that can be expected to cause the death of 50% of the population
log K _{ow}	Octanol-water partition coefficient
MARPOL	International Convention for the Prevention of Pollution from Ships
NPK	The highest permissible concentration
OEL	Exposure limits in the workplace
PBT	Persistent, bioaccumulative and toxic
PEL	Permissible exposure limit
ppm	Number of particles per million (millionth)
REACH	Registration, evaluation, authorization and restriction of chemical substances
RID	Agreement on the transport of dangerous goods by rail Four-digit
UN	United Nations identification number of the substance or object taken from the Model Regulations
UVCB	A substance of unknown or variable composition, complex reaction product, or biological material
voc	Volatile organic compounds
vPvB	Highly persistent and highly bioaccumulative
Acute Tox.	Acute toxicity
Aquatic Acute	Hazardous to the aquatic environment (acute)
Aquatic Chronic Eye	Hazardous to the aquatic environment (chronically)
Dam.	Serious eye damage
Eye Irritation.	Eye irritation
Flam. Uq.	Flammable liquid
Flam. Sol.	Flammable solid
Skin Irritation.	Skin irritation
Skin Sens.	Skin sensitization
HUNDRED	Specific target organ toxicity - single exposure

Training instructions

Familiarize workers with the recommended method of use, mandatory protective equipment, first aid and prohibited handling of the product.

Recommended restrictions of use not stated

Information on data sources used in compiling the safety data sheet Regulation of the European Parliament and the Council (EC) No. 1907/2006 (REACH), as amended. Regulation of the European Parliament and of the Council (EC) No. 1272/2008, as amended. Act No. 350/2011 Coll., on chemical substances and chemical mixtures, as amended. Data from the manufacturer of the substance/mixture, if available - data from the registration documentation.

Changes made (which information has been added, deleted or modified)

The so version replaces the BL version from 04/07/2021. Changes were made to Sections 2, 3, 13 and 16.
